

## PUBLISHING AGREEMENT – Student Theses

I hereby give my consent to publish the electronic version of my thesis in DiVA. By doing so, I allow University West to upload my thesis and make it public, which makes it possible for everyone to read and take part of the results of my work.

I certify that the publication of this work does not infringe on any copyright by a third party. That means that I am aware of that usage of other people's pictures, diagrams etc. requires that I have assured that I have the right to publish them.

N.B. Since no part of the copyright is transferred from the author, University West is not responsible for any violations of the copyright concerning the author's work. University West only provides a platform, which means that the author is "the one who publishes" in DiVA.

The University does not charge the author for the publishing in DiVA nor does the author have the right to economic compensation from University West for the publishing in DiVA. University West does not have the right to charge for the general public's usage of the author's work in DiVA.

For publishing in DiVA, the author must inform himself/herself of the publishing requirements. This is confirmed by signing this agreement.
